

# Chlorilong® ULTIMATE 7 copper sulfate free

Chlorilong® ULTIMATE 7 is a 300 g multifunctional chlorine tablet consisting of two layers with the following properties: shock disinfection of the sand filter, continuous disinfection to eliminate bacteria and turbidity in the pool water, flocculation, hardness and chlorine stabilisation.

## Use

### Multifunctional disinfection with chlorine.

Chlorilong® ULTIMATE 7 is a 7 function chlorine tablet for a complete and continuous removal of impurities from the pool water. Guarantees a clean and crystal clear water and avoids liner discoloration.

## Product description

### THE 7 functions multifunctional tablet.

The two layers of Chlorilong® ULTIMATE 7 work in different modes of action:

- The blue part disintegrates within approx. 10 minutes and remains on the filter bed. With the circulation pump running, this granular dissolves slowly, and carries out an intensive disinfection of the filter material for about 30 minutes, safely removing dirt and bacteria.
- The white part of the tablet is slow dissolving and provides a continuous disinfection.

## Dosing/instructions for use

The Chlorilong® ULTIMATE 7 tablet is applicable for a 30 m<sup>3</sup> pool and lasts between 7 to 10 days.

Backwash first and then add the tablet directly in the skimmer with filtration on during at least 4 hours.

- Phase 1: the blue layer dissolves after a few minutes. It guarantees a shock water chlorination and removes filter impurities.
- Phase 2: the white layer dissolves after 7 to 10 days (\*The dissolution speed may vary and is highly dependent on pump running time and water temperature).

**Important note:** Never apply Chlorilong® ULTIMATE 7 tablet directly into the pool to prevent bleaching spots. Avoid direct contact with non-chlorine resistant materials.

Ref: 5599310  
Weight: 4,8 kg

## Product benefits:

- 1 2 layers multifunctional chlorine tablets made from high quality raw materials
- 2 A.P.O.® technology guarantees a uniform amount of chlorine during the dissolution period
- 3 Multifunctional tablet + shock treatment chlorination + Filter shock action
- 4 Ultimate water treatment for crystal clear water
- 5 Do not contain copper sulfate (will not cause damage to the pool surface)

## Comfort care

### Dosing information

- **Dosage:** 1 x 300 g tablet for 30 m<sup>3</sup>
- **Where:** in the skimmer
- **Filter type:** sand filter
- **Water volume:** from 20 m<sup>3</sup>
- **When:** every 7 to 10 days\*\*
